Cocktail-Bites **NEW**

These new Cocktail-Bites are a response to the trend for original Barfood which can add a spectacular boost to the cocktail experience.

So often, when you go to a cocktail bar, you'll be served a fabulous cocktail. But what do you get to go with it? Sometimes nothing more than a bowl of cheap peanuts or cracker-coated nuts. We think it's a missed opportunity for the hospitality industry. That's why, at R&D Food Revolution, together with Albert Adrià, we developed a line of Cocktail-Bites. Cocktail-Bites are sensational little chips in crazy shapes and flavours, that are perfect for hospitality establishments that want to surprise their guests with an original bite to accompany their cocktails and drinks. Cocktail-Bites are available in 5 flavours and shapes: Bonito-Takoyaki, Codium-Samphire, Miso Za'atar, Kafir-Thai and Duvel-Gomasio and for preparation, you simply deep fry them and season with the spice mix provided. The curly shape of the Miso and the Codium have even been specially designed to hang on a glass. This eyecatcher is bound to be shared on social media and will certainly attract new customers to your bar or restaurant.

The hood of The Beast is made from the very first siphons to be put on the market. How to work with ... vegetable sheets?

INSTRUCTIONS FOR USE

The vegetable sheets can be used in different ways:

Sushi: Ready to use, simply remove the paper. Moisten if desired for better adhesion.

Vegetable pasta: Place the vegetable sheets vertically between the rollers of your pasta maker and make vegetable spaghetti or noodles. If you like, you can then deep fry them for a few seconds at 170°C.

In the deep fryer: Cut the vegetable sheets first into the desired shape and deep-fry for several seconds at 170 °C. If the vegetable sheet is warm you can still fold it into the desired shape. The vegetable sheet will harden once it cools.

As ravioli: Place meat and vegetables on the shiny side of the vegetable sheet. Cover with another sheet and stick the two sheets together with a few drops of water. Steam for 90 seconds at 90°C, at 100% humidity.

STORAGE ADVICE

Store at room temperature. After opening, the sheets can be stored at room temperature until the use-by date, if the bag is sealed tightly after each use.
